PROFILE

I am a Full-Stack Developer and BCA graduate experienced in developing and deploying end-to-end web applications using Django, DRF, PostgreSQL, React, and Redux. I focus on building secure, scalable backend systems and responsive, intuitive frontend interfaces. Passionate about clean architecture, performance optimization, and delivering production-ready solutions

PROFESSIONAL EXPERIENCE

Full Stack Developer Intern

Bridgeon Solution
(present)

- Developing scalable and responsive full-stack web applications using **Python, Django, Django REST Framework, PostgreSQL, React, and Redux**.
- Designing and implementing RESTful APIs, integrating frontend and backend systems, and building reusable, maintainable UI components.
- Writing clean, efficient, and scalable code while optimizing application performance and ensuring security best practices.
- Managing database models and queries using Django ORM and PostgreSQL.
- Deploying and maintaining production-ready applications using Git-based workflows and cloud platforms (Render).

PROJECTS

Raceify E-Commerce Platform (Full stack)

Tech Stack: React.js, Bootstrap, Django, Django REST Framework (DRF), PostgreSQL

- Developed a full-stack e-commerce platform with React frontend and Django REST backend.
- Implemented secure **JWT-based authentication** with email verification using SMTP.
- Integrated **Razorpay payment gateway** for real-time online transactions.
- Built core e-commerce functionalities including **wishlist, cart, order management, and checkout system**.
- Designed relational database schema using **PostgreSQL** and managed queries with Django ORM.
- Implemented **soft delete mechanism** for safe data management and recovery.
- Deployed full-stack application on Render with production configuration.

StudiGo Student Management System

Tech Stack: Django,PostgreSQL,Bootstrap

- Designed and developed a full-featured student management application using **Django** and **PostgreSQL**.
- Implemented authentication system with email verification via **SMTP**.
- Developed course purchase and enrollment workflow.
- Built role-based admin dashboard with complete CRUD operations.

TECHNICAL SKILLS

- Frontend Technologies - ReactJs,Redux,Tailwindcss,HTML5,CSS3,Javascript,Bootstrap
- Backend Technologies - Python, Django, Django ORM, Django REST Framework (DRF)
- Tools & Platforms - VS code,Git,Postman, Swagger
- Database - PostgreSQL
