

Abdul Basith

Python Full Stack Developer

☎ +91 8111816191 ✉ abdbasith171@gmail.com  LinkedIn  GitHub 📍 Kerala, India

PROFILE

Full-Stack Python Developer with hands-on experience building secure, scalable, and high-performance web applications using Python, Django, and Django REST Framework. Skilled in RESTful API development, authentication and authorization mechanisms, JWT authentication, database optimization, and developing responsive frontend applications with React.js, along with Git-based version control and Agile methodology.

Bringing strong communication, problem-solving, and teamwork skills gained through diverse professional experience, with a continuous learning mindset, adaptability, and a focus on delivering reliable, production-ready software aligned with business needs.

PROFESSIONAL EXPERIENCE

Python Full-Stack Developer (Intern)

Bridgeon solutions LLP

05/2025 – Present
Malappuram, Kerala

- Developed scalable backend services using **Python and Django REST Framework**, designing secure RESTful APIs with **JWT authentication, OAuth 2.0**, and role-based access control.
- Implemented **payment gateway integration** and third-party API integrations to support secure transactions and external services.
- Built responsive frontend applications using **React.js** and integrated them seamlessly with backend APIs.
- Optimized **PostgreSQL** queries and containerized applications using **Docker**, reducing environment inconsistencies and improving deployment efficiency.
- Managed production deployments using **Gunicorn** and **Nginx** on **AWS (EC2, S3, RDS)**.
- Followed **Agile methodologies**, performed testing and debugging, and collaborated using **GitHub** for version control and code reviews.

Technical Support Engineer

Polosys Technologies LLP

12/22 – 01/25
India & Saudi Arabia

- Provided technical support by troubleshooting software issues and ensuring smooth **ERP system operations**.
- Managed **ERP implementation and system integration**, tailoring solutions to meet client business requirements.
- Delivered user training and prepared documentation to improve system understanding and adoption.
- Acted as a key point of contact between clients and technical teams to ensure timely issue resolution.
- Worked for one year in Saudi Arabia, gaining experience in supporting diverse clients and business environments.

Worked in Non - IT Field

2018 – 2022

- Body Shop Advisor (Autobhan Trucking, Malappuram, Kerala)
- Testing Technician (Best Vehicle Pollution Testing, Kondotty, Kerala)
- Apprenticeship Trainee (Ford India Manufacturing & Assembly Plant, Chennai, Tamil Nadu)

SKILLS

Backend: Python, Django, Django REST Framework (DRF), RESTful APIs, JWT, OAuth, Payment Integration, Swagger

Frontend: React.js, Redux, JavaScript, HTML5, CSS, Tailwind CSS, Bootstrap

Database: PostgreSQL, MongoDB, Redis, Query Optimization

Cloud & DevOps: AWS (EC2, S3, RDS), Docker, Nginx, Gunicorn, CI/CD Basics

Testing & Tools: Unit Testing, Postman, Git, GitHub, Agile/Scrum

PROJECTS

PerfAura - Full-Stack E-commerce Platform for Perfumes

Tech Stack: Python, Django, Django REST Framework, React.js, PostgreSQL, JWT, OAuth, Docker, AWS, Nginx, Gunicorn, Razorpay, Swagger

- Architected a decoupled full-stack application using React.js and Django REST Framework (DRF) with JWT and OAuth-based authentication.
- Implemented secure authentication including OTP-based verification, access/refresh token rotation, and email-based password recovery.
- Integrated Razorpay payment gateway with server-side signature verification and automated order management.
- Designed a dynamic product and inventory management system with category filtering and real-time stock updates.
- Containerized the backend using Docker and deployed on AWS EC2 with Nginx and Gunicorn for scalable API handling.
- Configured PostgreSQL on AWS RDS and optimized database queries for improved performance.
- Deployed the frontend on Vercel with environment-based configuration for seamless backend integration.

Student Management System (MVC-Based Application)

Tech Stack: Python, Django, PostgreSQL, Django Templates, SMTP

- Developed an MVC-based Student Management System to strengthen backend architectural skills.
- Designed separate Student and Admin modules with role-based access control and structured permission handling.
- Implemented clear separation of models, views, templates, and service layers following modular design principles.
- Integrated SMTP-based email functionality, including secure link-based login authentication and automated notifications.
- Focused on reusable components, clean code practices, and maintainable application structure.

EDUCATION

Diploma in Automobile Engineering

Madin Polytechnic College - Malappuram, Kerala

06/2015 – 03/2018

Higher Secondary (Science)

GHSS Pookkottur - Malappuram, Kerala

06/2013 – 03/2015
